

# Sample Question Paper - Section 1

Q1: In distributed consensus protocols, which condition ensures safety?

- A. Quorum intersection
- B. Unbounded timeout
- C. Linear broadcast
- D. Random walk

## Sample Question Paper - Section 2

Q2: In distributed consensus protocols, which condition ensures safety?

- A. Quorum intersection
- B. Unbounded timeout
- C. Linear broadcast
- D. Random walk

## Sample Question Paper - Section 3

Q3: In distributed consensus protocols, which condition ensures safety?

- A. Quorum intersection
- B. Unbounded timeout
- C. Linear broadcast
- D. Random walk
